Toal Glutathione (T-GSH) Colorimetric Assay Kit (orb1173217)

Description Biorbyt CheKine Toal Glutathione (T-GSH) Colorimetric Assay Kit is designed for detecting the conten...

Storage Storage at -20°C and Keep from light immediately upon receipt. Kit has a storage time of 12 months from receipt. Refer to list of materials supplied for storage conditions of individual components.

Note For research use only

Application notes GSSG is reduced to GSH using Glutathione Reductase (GR). GSH reacts with 5,5'-dithiobis-bis-(2-nitrobenoicacid) to form 2-nitrobenoicacid which has a characteristic absorption peak at 412 nm, the content of total glutathione is determined then. It can test samples of tissues, bacteria, fungus, cells, serums, ect.

Hazard Information The product listed herein is for research use only and is not intended for use in human or clinical diagnosis. Suggested applications of our products are not recommendations to use our products in violation of any patent or as a license. We cannot be responsible for patent infringements or other violations that may occur with the use of this product.
