

Product Datasheet

Thioredoxin Reductase (TrxR) Colorimetric Assay Kit (orb1173235)

Description	Biorbyt CheKine Micro Thioredoxin Reductase (TrxR) Assay Kit is designed for detecting TrxR activity...
Storage	Storage at -20°C and Keep from light immediately upon receipt. Kit has a storage time of 12 months from receipt. Refer to list of materials supplied for storage conditions of individual components.
Note	For research use only
Application notes	TrxR can catalyzes the reduction of DTNB by NADPH to generate TNB and NADP+. TNB has a characteristic absorption peak at 412 nm. TrxR activity can be calculated by measuring the increase rate of TNB at 412 nm.
Hazard Information	The product listed herein is for research use only and is not intended for use in human or clinical diagnosis. Suggested applications of our products are not recommendations to use our products in violation of any patent or as a license. We cannot be responsible for patent infringements or other violations that may occur with the use of this product.
Expiration Date	Please enquire.
