

Product Datasheet

BMF Antibody (orb1240097)

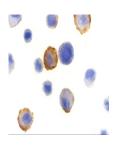

Applications

www.biorbyt.com

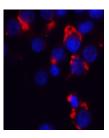

A B

9-

Western blot analysis of Bmf in 293 cell...

Immunocytochemistry of Bmf in HeLa cells...

Immunofluorescence of Bmf in HeLa cells ...

Descriptionnts. BMF Antibody

Species/Host Rabbit

Reactivity Human, Mouse

Conjugation Unconjugated

Tested ELISA, ICC, WB

Immunogen Bmf antibody was raised with a synthetic peptide

corresponding to 15 amino acids near the amino terminus of human Bmf.The immunogen is located

within the first 50 amino acids of Bmf.

Target BMF

Preservatives Bmf Antibody is supplied in PBS containing 0.02%

sodium azide.

Form/Appearance Liquid

Concentration 1 mg/mL

Storage Bmf antibody can be stored at 4°C for three months

and -20°C, stable for up to one year. As with all antibodies care should be taken to avoid repeated freeze thaw cycles. Antibodies should not be exposed

to prolonged high temperatures.

Note For research use only

Application notes Bmf antibody can be used for detection of Bmf by

Western blot at 1 - $2~\mu g/mL$. Antibody can also be used for immunocytochemistry starting at $10~\mu g/mL$. For immunofluorescence start at $5~\mu g/mL$. Antibody validated: Western Blot in human samples; Immunocytochemistry in human samples and

Immunofluorescence in human samples. All other

applications and species not yet tested.

Isotype lgG

Clonality Polyclonal

MW Predicted: 20 kDa Observed: 22 kDa

Uniprot ID Q96LC9

NCBI NP_277038

Dilution Range Bmf antibody can be used for detection of Bmf by

Western blot at 1 - 2 μ g/mL. Antibody can also be used for immunocytochemistry starting at 10 μ g/mL. For immunofluorescence start at 5 μ g/mL.Antibody
