## CHRM3 Antibody (orb1250541)

| Description            | CHRM3 Antibody   | Immunohistoche<br>staining of CHR |
|------------------------|--|-----------------------------------|
| Species/Host           | Rabbit   |                                   |
| Reactivity             | Gorilla, Human, Monkey, Primate  |                                   |
| Conjugation            | Unconjugated   |                                   |
| Tested<br>Applications | ELISA, IHC   |                                   |
| Immunogen              | CHRM3 antibody was raised against a peptide<br>located in the 3rd cytoplasmic domain of CHRM3<br>(Human).  |                                   |
| Target                 | CHRM3  |                                   |
| Preservatives          | PBS, 0.1% sodium azide.  |                                   |
| Form/Appearance        | Liquid   |                                   |
| Concentration          | 1 mg/ml  |                                   |
| Storage                | CHRM3 antibody should be stored long term<br>(months) at -80 °C and short term (days) at 4 °C. As<br>with all antibodies avoid freeze/thaw cycles. |                                   |
| Note                   | For research use only  |                                   |
| Application notes      | CHRM3 antibody can be used in ELISA, and immunohistochemistry starting at 10 $\mu$ g/mL.   |                                   |
| Clonality              | Polyclonal   |                                   |
| Uniprot ID             | P20309   |                                   |
| NCBI                   | P20309   |                                   |
| Dilution Range         | CHRM3 antibody can be used in ELISA, and immunohistochemistry starting at 10 $\mu$ g/mL.   |                                   |
| Expiration Date        | 12 months from date of receipt.  |                                   |
|                        |  |                                   |
