GJC3 Antibody (orb1266639)

Description	GJC3 Antibody	
Species/Host	Rabbit	95 72 55
Reactivity	Human	36-◄
Conjugation	Unconjugated	28
Tested Applications	WB	Western blot analysis in
Immunogen	This GJC3 antibody is generated from rabbits immunized with a KLH conjugated synthetic peptide between 252-278 amino acids from the C-terminal region of human GJC3.	MDA-MB453 cell
Target	GJC3	
Preservatives	Supplied in PBS with 0.09% (W/V) sodium azide.	
Form/Appearance	Liquid	
Concentration	batch dependent	
Storage	Store at 4°C for three months and -20°C, stable for up to	
5	one year. As with all antibodies care should be taken to avoid repeated freeze thaw cycles. Antibodies should not be exposed to prolonged high temperatures.	
Note	one year. As with all antibodies care should be taken to avoid repeated freeze thaw cycles. Antibodies should not	
-	one year. As with all antibodies care should be taken to avoid repeated freeze thaw cycles. Antibodies should not be exposed to prolonged high temperatures.	
Note	one year. As with all antibodies care should be taken to avoid repeated freeze thaw cycles. Antibodies should not be exposed to prolonged high temperatures. For research use only	
Note Application notes	one year. As with all antibodies care should be taken to avoid repeated freeze thaw cycles. Antibodies should not be exposed to prolonged high temperatures. For research use only For WB starting dilution is: 1:1000	
Note Application notes Isotype	one year. As with all antibodies care should be taken to avoid repeated freeze thaw cycles. Antibodies should not be exposed to prolonged high temperatures. For research use only For WB starting dilution is: 1:1000 Rabbit Ig	
Note Application notes Isotype Clonality	one year. As with all antibodies care should be taken to avoid repeated freeze thaw cycles. Antibodies should not be exposed to prolonged high temperatures. For research use only For WB starting dilution is: 1:1000 Rabbit Ig Polyclonal	
Note Application notes Isotype Clonality MW	one year. As with all antibodies care should be taken to avoid repeated freeze thaw cycles. Antibodies should not be exposed to prolonged high temperatures. For research use only For WB starting dilution is: 1:1000 Rabbit lg Polyclonal 31 kDa	
Note Application notes Isotype Clonality MW Uniprot ID	one year. As with all antibodies care should be taken to avoid repeated freeze thaw cycles. Antibodies should not be exposed to prolonged high temperatures. For research use only For WB starting dilution is: 1:1000 Rabbit Ig Polyclonal 31 kDa Q8NFK1
