| <b>Immunogen</b>           | This TTC9B antibody is generated from rabbits immunized with a KLH conjugated synthetic peptide between 177-206 amino acids from the C-terminal region of human TTC9B.                                                 |                                                                                     |
| <b>Target</b>              | TTC9B                                                                                                                                                                                                                  |                                                                                     |
| <b>Preservatives</b>       | Supplied in PBS with 0.09% (W/V) sodium azide.                                                                                                                                                                         |  |
| <b>Form/Appearance</b>     | Liquid                                                                                                                                                                                                                 | TTC9B Antibody immunohistochemistry anal...                                         |
| <b>Concentration</b>       | batch dependent                                                                                                                                                                                                        |                                                                                     |
| <b>Storage</b>             | Store at 4°C for three months and -20°C, stable for up to one year. As with all antibodies care should be taken to avoid repeated freeze thaw cycles. Antibodies should not be exposed to prolonged high temperatures. |                                                                                     |
| <b>Note</b>                | For research use only                                                                                                                                                                                                  |                                                                                     |
| <b>Application notes</b>   | For WB starting dilution is: 1:1000For IHC-P starting dilution is: 1:50~100                                                                                                                                            |                                                                                     |
