| <b>Description</b>         | Mouse monoclonal antibody to c Kit (KIT)                                                                                                                                                                                                             |
| <b>Species/Host</b>        | Mouse                                                                                                                                                                                                                                                |
| <b>Reactivity</b>          | Human                                                                                                                                                                                                                                                |
| <b>Conjugation</b>         | Unconjugated                                                                                                                                                                                                                                         |
| <b>Tested Applications</b> | IHC, WB                                                                                                                                                                                                                                              |
| <b>Immunogen</b>           | Human recombinant protein fragment corresponding to amino acids 27-308 of human KIT(NP_000213) produced in E.coli.                                                                                                                                   |
| <b>Target</b>              | KIT                                                                                                                                                                                                                                                  |
| <b>Note</b>                | For research use only                                                                                                                                                                                                                                |
| <b>Application notes</b>   | For reconstitution, we recommend adding 100uL distilled water to a final antibody concentration of about 1 mg/mL. To use this carrier-free antibody for conjugation experiment, we strongly recommend performing another round of desalting process. |
| <b>Isotype</b>             | IgG2b                                                                                                                                                                                                                                                |
| <b>Clonality</b>           | Monoclonal                                                                                                                                                                                                                                           |
| <b>MW</b>                  | 109.7 kDa                                                                                                                                                                                                                                            |
| <b>Uniprot ID</b>          | <a href="#">P10721</a>                                                                                                                                                                                                                               |
