

## Product Datasheet

# Alpha-Glucosidase Microplate Assay Kit [Out of stock] (orb1494217)

|                            |                                                                              |
|----------------------------|------------------------------------------------------------------------------|
| <b>Description</b>         | Detection and Quantification of Alpha-Glucosidase Activity.                  |
| <b>Tested Applications</b> | FA                                                                           |
| <b>Storage</b>             | Shipped and store at 4°C for 6 months.                                       |
| <b>Note</b>                | For research use only                                                        |
| <b>Application notes</b>   | Colorimetric                                                                 |
| <b>Sample Types</b>        | Tissue extracts, Cell lysate, Cell culture media and Other biological fluids |
| <b>CAS Number</b>          | 9001-42-7                                                                    |
| <b>Expiration Date</b>     | 12 months from date of receipt.                                              |
