

## Product Datasheet

### ACPP / PAP Antibody (orb1537985)

**Description**

ACPP / PAP Antibody

**Species/Host**

Mouse

**Reactivity**

Human

**Conjugation**

Unconjugated

**Tested**

ELISA, IHC, IHC-P, IRMA

**Applications**
**Immunogen**

Highly pure human PAP

**Target**

ACPP / PAP

**Preservatives**

PBS, pH 7.5, 0.1% Sodium Azide. PBS, pH 7.5, 0.1% Sodium Azide

**Concentration**

1 mg/ml

**Storage**

Store at 4°C.

**Note**

For research use only

**Application notes**

Further information: Immunohistochemistry: LS-B3108 was validated for use in immunohistochemistry on a panel of 21 formalin-fixed, paraffin-embedded (FFPE) human tissues after heat induced antigen retrieval in pH 6.0 citrate buffer. After incubation with the primary antibody, slides were incubated with biotinylated secondary antibody, followed by alkaline phosphatase-streptavidin and chromogen. The stained slides were evaluated by a pathologist to confirm staining specificity. The optimal working concentration for LS-B3108 was determined to be 5 ug/ml. ELISA: Can be used as the capture antibody in a sandwich ELISA along with LS-C84714 as the detection antibody.

**Isotype**

IgG1

**Clonality**

Monoclonal

**Dilution Range**

ELISA, IHC, IHC-P (5 µg/ml), IRMA

**Expiration Date**

12 months from date of receipt.
