### KRIBB11 (orb16603)

|                        |                                                                                                            |
|------------------------|------------------------------------------------------------------------------------------------------------|
| <b>Description</b>     | KRIBB11 is a Heat shock factor (HSF) inhibitor (IC <sub>50</sub> = 1.2 μM).                                |
| <b>Note</b>            | For research use only                                                                                      |
| <b>Formula</b>         | C <sub>13</sub> H <sub>12</sub> N <sub>6</sub> O <sub>2</sub>                                              |
| <b>MW</b>              | 284.2734                                                                                                   |
| <b>CAS Number</b>      | [342639-96-7]                                                                                              |
| <b>SMILES</b>          | [O-]<br>][N+](C1C([H])=C([H])C(N([H])C([H])([H])[H])=NC=1N([H])C1C([H])=C([H])C2=C(C([H])=NN2[H])C=1[H])=O |
| <b>Expiration Date</b> | 12 months from date of receipt.                                                                            |
