| <b>Description</b>         | Human BCAR3/Breast cancer anti-estrogen resistance protein 3 ELISA Kit                                                                                                                                                                                   |
| <b>Reactivity</b>          | Human                                                                                                                                                                                                                                                    |
| <b>Tested Applications</b> | ELISA                                                                                                                                                                                                                                                    |
| <b>Note</b>                | For research use only                                                                                                                                                                                                                                    |
| <b>Application notes</b>   | Detect Range: 0.312-20 ng/mL. Sensitivity: 0.183 ng/mL. Assay Type: Sandwich. Assay Time: 3-5 h. Detection wavelength: 450 nm. Gene_full_name: BCAR3. Sample Volume: 100 µL. Sample Type: Serum, plasma, tissue homogenates and other biological fluids. |
| <b>Expiration Date</b>     | Please enquire.                                                                                                                                                                                                                                          |
