| <b>Description</b>         | Mouse Cd3e/T-cell surface glycoprotein CD3 epsilon chain ELISA Kit                                                                                                                                                                                      |
| <b>Reactivity</b>          | Mouse                                                                                                                                                                                                                                                   |
| <b>Tested Applications</b> | ELISA                                                                                                                                                                                                                                                   |
| <b>Note</b>                | For research use only                                                                                                                                                                                                                                   |
| <b>Application notes</b>   | Detect Range: 0.312-20 ng/mL. Sensitivity: 0.135 ng/mL. Assay Type: Sandwich. Assay Time: 3-5 h. Detection wavelength: 450 nm. Gene_full_name: Cd3e. Sample Volume: 100 µL. Sample Type: Serum, plasma, tissue homogenates and other biological fluids. |
| <b>Expiration Date</b>     | Please enquire.                                                                                                                                                                                                                                         |
