

## Product Datasheet

### Fibrinogen beta antibody (orb178378)

|                            |                                                                                                                                                             |
|----------------------------|-------------------------------------------------------------------------------------------------------------------------------------------------------------|
| <b>Description</b>         | Goat polyclonal antibody to Fibrinogen beta                                                                                                                 |
| <b>Species/Host</b>        | Goat                                                                                                                                                        |
| <b>Reactivity</b>          | Canine, Human                                                                                                                                               |
| <b>Conjugation</b>         | Unconjugated                                                                                                                                                |
| <b>Tested Applications</b> | ELISA, WB                                                                                                                                                   |
| <b>Target</b>              | fibrinogen beta chain                                                                                                                                       |
| <b>Preservatives</b>       | Supplied at 0.5 mg/ml in Tris saline, 0.02% sodium azide, pH 7.3 with 0.5% bovine serum albumin. Aliquot and store at -20°C. Minimize freezing and thawing. |
| <b>Storage</b>             | Aliquot and store at -20°C. Minimize freezing and thawing.                                                                                                  |
| <b>Note</b>                | For research use only                                                                                                                                       |
| <b>Application notes</b>   | WB: Approx 60kDa band observed in Human Liver lysates (calculated MW of 55.9kDa according to NP_005132.2). Recommended concentration: 0.3-1µg/ml.           |
| <b>Protein Sequence</b>    | RSKIQKLESDVSAQ                                                                                                                                              |
| <b>Clonality</b>           | Polyclonal                                                                                                                                                  |
| <b>MW</b>                  | 55.9; 50.0                                                                                                                                                  |
| <b>Entrez</b>              | <a href="#">2244</a>                                                                                                                                        |
| <b>Dilution Range</b>      | ELISA: 1:128000, WB: 0.3-1 µg/ml                                                                                                                            |
| <b>Expiration Date</b>     | 12 months from date of receipt.                                                                                                                             |

Western blot analysis of Human Liver lys...
