Rat FNDC5(Fibronectin type III domain-containing protein 5) ELISA Kit (orb1807017)

Descriptionnts.

### Rat FNDC5(Fibronectin type III domain-

# www.biorbyt.com

Description		
Reactivity	Rat	
Range	62.5-4000pg/mL	
Target	FNDC5	U I III III III IIII IIII IIIIIIIIIIIII
Note	For research use only	
	This ELISA kit uses the Sandwich-ELISA principle. The micro ELISA plate provided in this kit has been pre-coated with an antibody specific to Rat FNDC5. Standards or samples are added to the micro ELISA plate wells and combined with the specific antibody. Then a biotinylated detection antibody specific for Rat FNDC5 and Avidin-Horseradish Peroxidase (HRP) conjugate are added successively to each micro plate well and incubated. Free components are washed away. The substrate solution is added to each well. Only those wells that contain Rat FNDC5, biotinylated detection antibody and Avidin-HRP conjugate will appear blue in color. The enzyme-substrate reaction is terminated by the addition of stop solution and the color turns yellow. The optical density (OD) is measured spectrophotometrically at a wavelength of 450 nm $\pm$ 2 nm. The OD value is proportional to the concentration of Rat FNDC5. You can calculate the concentration of Rat FNDC5 in the samples by comparing the OD of the samples to the standard curve.	
Sample Types	serum, plasma, Tissue homogenate and Other biological samples	
Sensitivity	37.50 pg/mL	
Expiration Date	Please enquire.
