

## **Product Datasheet**

Mouse Flt3L(FMS-like Tyrosine Kinase 3 Ligand) ELISA Kit (orb1807948)

## www.biorbyt.com

**Description**nts. Mouse Flt3L(FMS-like Tyrosine Kinase 3

**Reactivity** Mouse

**Range** 15.63-1000pg/mL

Target Flt3L

**Note** For research use only

Application notes This ELISA kit uses the Sandwich-ELISA

principle. The micro ELISA plate provided in this kit has been pre-coated with an

antibody specific to Mouse Flt3L.

Standards or samples are added to the micro ELISA plate wells and combined with

the specific antibody. Then a biotinylated detection antibody specific for Mouse Flt3L and Avidin-Horseradish Peroxidase (HRP) conjugate are added successively to each micro plate well and incubated. Free components are washed away. The

substrate solution is added to each well.
Only those wells that contain Mouse Flt3L, biotinylated detection antibody and

color. The enzyme-substrate reaction is terminated by the addition of stop solution and the color turns yellow. The optical

Avidin-HRP conjugate will appear blue in

density (OD) is measured

spectrophotometrically at a wavelength of

450 nm  $\pm$  2 nm. The OD value is

proportional to the concentration of Mouse Flt3L. You can calculate the concentration

of Mouse Flt3L in the samples by

comparing the OD of the samples to the

standard curve.

Sample Types serum, plasma, Tissue homogenate and

Other biological samples

Sensitivity 9.38 pg/mL

**Expiration Date** Please enquire.
