

## Product Datasheet

### Fludarabine phosphate (orb180798)

|                        |                                                                                                                                       |
|------------------------|---------------------------------------------------------------------------------------------------------------------------------------|
| <b>Description</b>     | Fludarabine Phosphate is an analogue of adenosine and deoxyadenosine, which is able to compete with ...                               |
| <b>Note</b>            | For research use only                                                                                                                 |
| <b>Formula</b>         | C <sub>10</sub> H <sub>13</sub> FN <sub>5</sub> O <sub>7</sub> P                                                                      |
| <b>MW</b>              | 365.2117                                                                                                                              |
| <b>CAS Number</b>      | [75607-67-9]                                                                                                                          |
| <b>SMILES</b>          | <chem>P(=O)(O[H])(O[H])OC([H])([H])[C@]1([H])[C@]([H])([C@@]([H])([C@]([H])(N2C([H])=NC3=C(N([H])([H])N=C(N=C23)F)O1)O[H])O[H]</chem> |
| <b>Expiration Date</b> | 12 months from date of receipt.                                                                                                       |

Chemical structure of Fludarabine phosph...
