

Product Datasheet

GTF2IRD1 antibody (orb19315)

Description

Goat polyclonal antibody to GTF2IRD1

Species/Host

Goat

Reactivity

Canine, Human, Mouse, Rat

Conjugation

Unconjugated

Tested

ELISA, FC, IF, WB

Applications
Target

GTF2IRD1

Preservatives

Supplied at 0.5 mg/ml in Tris saline, 0.02% sodium azide, pH 7.3 with 0.5% bovine serum albumin. Aliquot and store at -20°C. Minimize freezing and thawing.

Storage

Aliquot and store at -20°C. Minimize freezing and thawing.

Note

For research use only

Application notes

ELISA: Peptide ELISA: antibody detection limit dilution 1:64000.WB: Preliminary experiments gave bands at approx 30kDa and 40kDa in Human Heart lysate after 0.3 µg/ml antibody staining. Please note that currently we cannot find an explanation in the literature for the bands we observe given the calculated size of 106kDa according to NP_057412.1 and NP_005676.2. Both detected bands were successfully blocked by incubation with the immunizing peptide (and BLAST results with the immunizing peptide sequence did not identify any other proteins to explain the additional bands). We would appreciate any feedback from people in the field - have any results been reported with other antibodies/lysates Have any further splice variants/modified forms been reported

Protein Sequence

NKFTKDTTKLEPAS

Clonality

Polyclonal

MW

106 105; 108

Entrez
[9569](#)
Dilution Range

ELISA: 1:64000, WB: 0.3 µg/ml

Expiration Date

12 months from date of receipt.
