

Product Datasheet

Porcine T3(Triiodothyronine) ELISA Kit (orb1946573)

Description Porcine T3(Triiodothyronine) ELISA Kit

Reactivity Porcine

Range 156.25-10000 pg/mL

Target T3

Note For research use only

Application notes This assay employs the competitive inhibition

enzyme immunoassay technique. The microtiter plate provided in this kit has been pre-coated with Triiodothyronine(T3) protein. Standards or samples are added to the appropriate microtiter plate wells then with a

biotin-conjugated antibody specific to
Triiodothyronine(T3). Next, Avidin conjugated
to Horseradish Perovidase (HRP) is added to

to Horseradish Peroxidase (HRP) is added to each microplate well and incubated. After TMB substrate solution is added. The enzymesubstrate reaction is terminated by the addition of sulphuric acid solution and the

color change is measured

spectrophotometrically at a wavelength of $450 \text{nm} \pm 10 \text{nm}$. The concentration of Triiodothyronine(T3) in the samples is then determined by comparing the OD of the

samples to the standard curve.

Sample Types serum, plasma and other biological fluids

Sensitivity 51.7 pg/mL

Expiration Date Please enquire.
