

Product Datasheet

Human SIGLEC10(Sialic Acid Binding Immunoglobulin Like Lectin 10) ELISA Kit (orb1949045)

www.biorbyt.com

Description nts.

Human SIGLEC10(Sialic Acid Binding

Kit

Reactivity Human

Range 0.16-10ng/mL

Target SIGLEC10

Note For research use only

Application notes This ELISA kit uses the Sandwich-ELISA

principle. The micro ELISA plate

provided in this kit has been pre-coated with an antibody specific to Human SIGLEC10. Standards or samples are added to the micro ELISA plate wells and combined with the specific

antibody. Then a biotinylated detection antibody specific for Human SIGLEC10 and Avidin-Horseradish Peroxidase

(HRP) conjugate are added

successively to each micro plate well and incubated. Free components are washed away. The substrate solution is added to each well. Only those wells that contain Human SIGLEC10.

that contain Human SIGLEC10, biotinylated detection antibody and Avidin-HRP conjugate will appear blue in color. The enzyme-substrate reaction is terminated by the addition of stop solution and the color turns yellow. The

optical density (OD) is measured spectrophotometrically at a wavelength of 450 nm \pm 2 nm. The OD value is proportional to the concentration of Human SIGLEC10. You can calculate the concentration of Human SIGLEC10 in the samples by comparing the OD of the samples to the standard curve.

Sample Types serum, plasma, Tissue homogenate

and Other biological samples

Uniprot ID Q96LC7

Sensitivity 0.1 ng/mL

Expiration Date Please enquire.
