

Product Datasheet

TMPRSS11D antibody (orb20313)

Description

Goat polyclonal antibody to TMPRSS11D

Species/Host

Goat

Reactivity

Human

Conjugation

Unconjugated

Tested

ELISA

Applications
Target

TMPRSS11D / HAT

Preservatives

Supplied at 0.5 mg/ml in Tris saline, 0.02% sodium azide, pH 7.3 with 0.5% bovine serum albumin. Aliquot and store at -20°C. Minimize freezing and thawing.

Storage

Aliquot and store at -20°C. Minimize freezing and thawing.

Note

For research use only

Application notes

ELISA: Peptide ELISA: antibody detection limit dilution 1:8000. WB: Preliminary experiments gave an approx 20kDa band in lysates of HepG2 after 1 µg/ml antibody staining. Please note that currently we cannot find an explanation in the literature for the band we observe given the calculated size of 46.3kDa according to NP_004253.1. The 20kDa band was successfully blocked by incubation with the immunizing peptide. We would appreciate any feedback from people in the field - have any results been reported with other antibodies/lysates Have any further splice variants/modified forms been reported

Protein Sequence
