## **Product Datasheet**

### L-Asparaginase antibody (Biotin) (orb20992)

# **Biotin-conjugated IgG fraction of** asparaginase from Escherichia co

### www.biorbyt.com

Description	Biolin-conjugated igg fraction of
	asparaginase from Escherichia col
Species/Host	Rabbit
Conjugation	Biotin
Preservatives	Biotin-coupled hyperimmune rabbit IgG lyophilised from a solution in phosphate buffered saline (PBS, pH 7.2). No preservative added, as it may interfere with the antibody activity. No foreign protein added.
Form/Appearance	Biotin-coupled hyperimmune rabbit IgG lyophilised from a solution in phosphate buffered saline (PBS, pH 7.2). No preservative added, as it may interfere with the antibody activity. No foreign protein added.
Storage	Storage: The lyophilised conjugate is shipped at ambient temperature and may be stored at +4°C; prolonged storage at or below -20°C. Prior to use, an aliquot is thawed slowly at ambient temperature, spun down again and used to prepare working dilutions by adding sterile phosphate buffered saline (PBS, pH 7.2). Repeated thawing and freezing should be avoided. Working dilutions should be stored at +4°C, not refrozen, and preferably used the same day. If a slight precipitation occurs upon storage, this should be removed by centrifugation. It will not affect the performance of the product
Note	For research use only
Clonality	Polyclonal
Source	L-Asparaginase isolated and purified from Escherichia coli. Freund's complete adjuvant is used in the first step of the immunization procedure.
Uniprot ID	P00805
Hazard Information	This product is intended FOR RESEARCH USE ONLY, and FOR TESTS IN VITRO, not for use in diagnostic or therapeutic procedures involving humans or animals.
