

## **Product Datasheet**

NADH-FMN Oxidoreductase antibody (Biotin) (orb21055)

## www.biorbyt.com

**Description**nts. Biotin-conjugated IgG fraction of

FMN oxidoreductase from Photob...

Species/Host Rabbit

**Conjugation** Biotin

**Preservatives** Biotin-coupled hyperimmune rabbit

IgG lyophilised from a solution in phosphate buffered saline (PBS, pH 7.2). No preservative added, as it may interfere with the antibody activity. No

foreign protein added.

Form/Appearance Biotin-coupled hyperimmune rabbit

IgG lyophilised from a solution in phosphate buffered saline (PBS, pH 7.2). No preservative added, as it may interfere with the antibody activity. No

foreign protein added.

**Storage** Storage: The lyophilised conjugate is

shipped at ambient temperature and may be stored at +4°C; prolonged storage at or below -20°C. Prior to use, an aliquot is thawed slowly at ambient temperature, spun down again and used to prepare working dilutions by adding sterile phosphate

buffered saline (PBS, pH 7.2).

Repeated thawing and freezing should be avoided. Working dilutions should be stored at +4°C, not refrozen, and preferably used the same day. If a slight precipitation occurs upon storage, this should be removed by centrifugation. It will not affect the performance of the product

**Note** For research use only

**Clonality** Polyclonal

**Source** NADH-FMN oxidoreductase isolated

and purified from Photobacterium fischeri. Freund's complete adjuvant is

used in the first step of the immunization procedure.

**Hazard** This product is intended FOR

**Information** RESEARCH USE ONLY, and FOR TESTS

IN VITRO, not for use in diagnostic or therapeutic procedures involving
