

## **Product Datasheet**

Rabbit IgG Human Ig Lambda Light Chain (FITC) antibody (orb21755)

## www.biorbyt.com

## Descriptionnts. Fluorescein isothiocyanate-

polyclonal rabbit antiserum to free

and bound ...

Rabbit Species/Host

Reactivity Human

FITC Conjugation

**Preservatives** Fluorochrome coupled purified

> rabbit IgG lyophilized from a solution in phosphate buffered saline (pH 7.2). No preservative added, as it may interfere with the

antibody activity.

Form/Appearance Fluorochrome coupled purified

> rabbit IgG lyophilized from a solution in phosphate buffered saline (pH 7.2). No preservative added, as it may interfere with the

antibody activity.

Storage Storage: The lyophilized product is

> shipped at ambient temperature and may be stored at +4°C; prolonged storage at or below -20°C. Prior to use, an aliquot is thawed slowly at ambient

temperature, spun down again and used to prepare working dilutions by adding sterile phosphate buffered saline (PBS, pH 7.2). Repeated thawing and freezing should be avoided. Working dilutions should be stored at +4°C. not refrozen, and preferably used

the same day. If a slight

precipitation occurs upon storage,

this should be removed by

centrifugation. It will not affect the

performance of the product

Note For research use only

Clonality Polyclonal

Source A pool of purified Bence Jones

> lambda proteins isolated from human urine. Freund's complete adjuvant is used in the first step of the immunization procedure.
