

## Product Datasheet

### SGCB peptide (orb217926)

|                            |                                                                         |
|----------------------------|-------------------------------------------------------------------------|
| <b>Description</b>         | The peptide is used to block anti-Beta-sarcoglycan antibody reactivity. |
| <b>Reactivity</b>          | Human, Mouse, Porcine, Rabbit, Rat                                      |
| <b>Tested Applications</b> | Blocking                                                                |
| <b>Target</b>              | SGCB                                                                    |
| <b>Form/Appearance</b>     | Lyophilized powder                                                      |
| <b>Storage</b>             | Shipped at 4°C. Store at -20°C for one year.                            |
| <b>Note</b>                | For research use only                                                   |
| <b>Application notes</b>   | This peptide was used as immunogen to produce orb214570.                |
| <b>Purity</b>              | > 85%                                                                   |
| <b>Source</b>              | Synthetic                                                               |
| <b>Uniprot ID</b>          | <b>P82349, Q16585</b>                                                   |
| <b>Entrez</b>              | <b>24051, 6443</b>                                                      |
| <b>Expiration Date</b>     | 12 months from date of receipt.                                         |
