

Product Datasheet

Platelet Factor 4 antibody (orb21922)

Description

Rabbit polyclonal antibody to Platelet Factor

Species/Host	Rabbit
Conjugation	Unconjugated
Preservatives	Delipidated, heat inactivated, lyophilized, stable whole antiserum Sodium azide. Total protein and IgG concentrations in the antiserum are comparable to those of pooled normal rabbit serum. No foreign proteins added.
Form/Appearance	Delipidated, heat inactivated, lyophilized, stable whole antiserum Sodium azide. Total protein and IgG concentrations in the antiserum are comparable to those of pooled normal rabbit serum. No foreign proteins added.
Storage	Storage: The lyophilized antiserum is shipped at ambient temperature and may be stored at +4°C; prolonged storage at or below -20°C. Dilutions may be prepared by adding phosphate buffered saline (PBS, pH 7.2). Repeated thawing and freezing should be avoided. If a slight precipitation occurs upon storage, this should be removed by centrifugation. It will not affect the performance of the antiserum. Diluted antiserum should be stored at +4°C, not refrozen, and preferably used the same day
Note	For research use only
Clonality	Polyclonal
Source	Platelet factor 4 is a low molecular weight (MW 7,800) heat stable protein, secreted by alpha granules of the platelets. Purified platelet factor 4 isolated from pooled human serum. Freund's complete adjuvant is used in the first step of the immunization procedure.
Uniprot ID	P02776
Hazard Information	This product is intended FOR RESEARCH USE ONLY, and FOR TESTS IN VITRO, not for use in diagnostic or therapeutic procedures involving humans or animals. This product contains sodium azide. To prevent formation of toxic vapors, do not mix with strong acidic solutions. To prevent
