

Product Datasheet

Mouse Ascites Human IgG1 antibody (orb22209)

Description

Monoclonal mouse antibody to human

presence of IgG1 in huma...

Species/Host

Mouse

Conjugation

Unconjugated

Preservatives

Delipidated, heat inactivated lyophilized stable ascites No preservative added, as it may interfere with the antibody activity. No foreign protein added. IgG concentration is 1.0 mg/ml. No foreign proteins added.

Form/Appearance

Delipidated, heat inactivated lyophilized stable ascites No preservative added, as it may interfere with the antibody activity. No foreign protein added. IgG concentration is 1.0 mg/ml. No foreign proteins added.

Storage

Storage: The lyophilized product is shipped at ambient temperature and may be stored at +4°C; prolonged storage at or below -20°C. Dilutions may be prepared by adding phosphate buffered saline (PBS, pH 7.2). Avoid repeated thawing and freezing. If a slight precipitation occurs upon storage, this should be removed by centrifugation and will not affect the performance of the product. Diluted ascites should be stored at +4°C, not refrozen, and preferably used the same day

Note

For research use only

Isotype

IgG1

Clonality

Monoclonal

Source

Highly purified monoclonal IgG1 isolated from pooled human serum

Hazard Information

This product is intended FOR RESEARCH USE ONLY, and FOR TESTS IN VITRO, not for use in diagnostic or therapeutic procedures involving humans or animals. This datasheet is as accurate as reasonably achievable, but Nordic-MUBio accepts no liability for any inaccuracies or omissions in this information.
