

## Product Datasheet

### Conduritol B Epoxide (CBE) (orb315432)

|                        |                                                                                                               |
|------------------------|---------------------------------------------------------------------------------------------------------------|
| <b>Description</b>     | Conduritol B Epoxide (CBE) is a specific covalent inhibitor of $\beta$ -glucosidase which results in the a... |
| <b>Note</b>            | For research use only                                                                                         |
| <b>Formula</b>         | $C_6H_{10}O_5$                                                                                                |
| <b>MW</b>              | 162.1406                                                                                                      |
| <b>CAS Number</b>      | [6090-95-5]                                                                                                   |
| <b>SMILES</b>          | <chem>O[C@@H]1[C@@H](O)[C@H](O)[C@@H](O)[C@H]2[C@@H]1O2</chem>                                                |
| <b>Expiration Date</b> | 12 months from date of receipt.                                                                               |
