

## Product Datasheet

### Talabostat mesylate (orb341657)

|                        |                                                                                                         |
|------------------------|---------------------------------------------------------------------------------------------------------|
| <b>Description</b>     | Talabostat mesilate(PT-100; Val-boroPro) is an orally active, specific inhibitor of dipeptidyl pepti... |
| <b>Note</b>            | For research use only                                                                                   |
| <b>Formula</b>         | $C_{10}H_{23}BN_2O_6S$                                                                                  |
| <b>MW</b>              | 310.17                                                                                                  |
| <b>CAS Number</b>      | [150080-09-4]                                                                                           |
| <b>SMILES</b>          | <chem>NC(C(C)C)C(N1CCCC1B(O)O)=O.OS(=O)(=O)O</chem>                                                     |
| <b>Expiration Date</b> | 12 months from date of receipt.                                                                         |

Chemical structure of Talabostat mesylat...
