### COL1A1 antibody (orb345868)

# biorbyt

## www.biorbyt.com

Description <sup>nts.</sup>	COL1A1 antibody	Collagen
Species/Host	Rabbit	
Reactivity	Human, Mouse, Rat	
Conjugation	Biotin	10 EB
Tested Applications	DOT, ELISA, FC, IHC, IP, Multiplex Assay, WB	Western blot analysis of
Immunogen	Collagen Type I from human and bovine placenta.	rat hepatic
Preservatives	0.01% (w/v) Sodium Azide	ste
Form/Appearance	Lyophilized	
Concentration	1.0 mg/mL	
Storage	Store vial at 4° C prior to restoration. Restore with 0.1 mL of deionized water (or equivalent). For extended storage aliquot contents and freeze at -20° C or below. Avoid cycles of freezing and thawing. Centrifuge product if not completely clear after standing at room temperature. This product is stable for several weeks at 4° C as an undiluted liquid. Dilute only prior to immediate use. Expiration date is one (1) year from date of restoration.	
Note	For research use only	
Application notes	Anti-COLLAGEN Type I Antibody Biotin Conjugated has been tested by dot blot and Flow Cytometry and is suitable for western blot, immunoprecipitation, Flow Cytometry, and immunohistochemistry. Researchers should determine optimal titers for applications that are not stated below.	
lsotype	lgG	
Clonality	Polyclonal	
Purity	This product has been prepared by immunoaffinity chromatography using immobilized antigens. Some class- specific anti-collagens may be specific for three- dimensional epitopes which may result in diminished reactivity with denatured collagen or formalin-fixed, paraffin embedded tissues. This antibody reacts with most mammalian Type I collagens and has expected cross- reactivity with Type III and negligible cross reactivity with Type II, IV, V or VI collagens. Non-specific cross-reaction of anti-collagen antibodies with other human serum proteins or non-collagen extracellular matrix proteins has not been tested.
