

## Product Datasheet

### Human IgM (myeloma) Fc5u Texas Red Antibody (orb346269)

**Description**

Human IgM (myeloma) Fc5u Texas

**Conjugation**

Texas Red

**Preservatives**

0.01% (w/v) Sodium Azide

**Form/Appearance**

Lyophilized

**Storage**

Store vial at 4° C prior to restoration. For extended storage aliquot contents and freeze at -20° C or below. Avoid cycles of freezing and thawing. Centrifuge product if not completely clear after standing at room temperature. This product is stable for several weeks at 4° C as an undiluted liquid. Dilute only prior to immediate use.

**Note**

For research use only

**Application notes**

Human IgM (myeloma) Fc5μ fragment Texas Red conjugation is designed for immunofluorescence microscopy, fluorescence based plate assays (FLISA) and fluorescent western blotting. This product is also suitable for multiplex analysis, including multicolor imaging, utilizing various commercial platforms.

**Isotype**

IgM

**Purity**

This product was prepared from normal serum by delipidation, selective precipitation and tandem size exclusion chromatography followed by extensive dialysis against the buffer stated above. Assay by immunoelectrophoresis resulted in a single precipitin arc against anti-Human IgM and anti-Human Serum. No reaction was observed against anti-Human IgG F(c) or anti-Human IgA.

**Source**

Human

**Expiration Date**

12 months from date of receipt.
