

Product Datasheet

Horse IgM mu chain antibody (FITC) (orb346634)

Description

Horse IgM mu chain antibody (FITC)

Species/Host

Rabbit

Reactivity

Equine

Conjugation

FITC

Tested

FC, FLISA, IF

Applications
Immunogen

Horse IgM mu heavy chain

Preservatives

0.01% (w/v) Sodium Azide

Form/Appearance

Lyophilized

Concentration

10.0 mg/mL

Storage

Store vial at 4° C prior to restoration. For extended storage aliquot contents and freeze at -20° C or below. Avoid cycles of freezing and thawing. Centrifuge product if not completely clear after standing at room temperature. This product is stable for several weeks at 4° C as an undiluted liquid. Dilute only prior to immediate use.

Note

For research use only

Application notes

This product is designed for immunofluorescence microscopy, fluorescence based plate assays (FLISA) and fluorescent western blotting. This product is also suitable for multiplex analysis, including multicolor imaging, utilizing various commercial platforms.

Isotype

IgG

Clonality

Polyclonal

Purity

This product is an IgG fraction antibody purified from monospecific antiserum by a multi-step process which includes delipidation, salt fractionation and ion exchange chromatography followed by extensive dialysis against the buffer stated above. Assay by immunoelectrophoresis resulted in a single precipitin arc against anti-fluorescein, anti-Rabbit Serum, Horse IgM and Horse Serum. No reaction was observed against Horse IgG.

Dilution Range

FLISA: 1:10,000 - 1:50,000, FC: 1:500 -
