## 10X Te Ph 8.0 (orb348531)

| Description           | 10X Te Ph 8.0   |
|-----------------------|---|
| Conjugation           | Unconjugated  |
| Preservatives         | Preservative: None. Stabilizer: None. See application note.   |
| Form/Appearance       | Liquid (sterile filtered)   |
| Concentration         | 10X   |
| Storage               | Store container at room temperature (18° to 26°<br>C) prior to opening. If desired, the solution may<br>be stored at 4° C or less. Some salts may<br>precipitate out of solution at lower temperature.<br>Allow buffer to equilibrate to room temperature<br>(18° to 26° C) to restore solubility of some salts.  |
| Note                  | For research use only   |
| Application notes     | TE buffer is a concentrated stock solution and<br>should be diluted appropriately with distilled,<br>deionized water or equivalent to its final working<br>concentration. This buffer consists of 100 mM<br>Tris HCl and 10 mM EDTA at a pH of 8.0.<br>Meticulously prepared using ultra pure reagents<br>dissolved in DEPC treated molecular biology<br>grade water. |
| Hazard<br>Information | Non-Toxic   |
| Expiration Date       | 12 months from date of receipt.   |
