

## Product Datasheet

### ENaC beta antibody (orb383777)

## Description

Mouse monoclonal antibody against ENaC

|                            |                                                                                                                                                                                                  |
|----------------------------|--------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------|
| <b>Species/Host</b>        | Mouse                                                                                                                                                                                            |
| <b>Reactivity</b>          | Mouse                                                                                                                                                                                            |
| <b>Conjugation</b>         | HRP                                                                                                                                                                                              |
| <b>Tested Applications</b> | IHC, WB                                                                                                                                                                                          |
| <b>Immunogen</b>           | Synthetic peptide from the C-terminal of Rat ENaC beta (aa. 617-638)                                                                                                                             |
| <b>Target</b>              | ENaC beta                                                                                                                                                                                        |
| <b>Preservatives</b>       | PBS pH 7.4, 50% glycerol, 0.09% sodium azide *Storage buffer may change when conjugated                                                                                                          |
| <b>Concentration</b>       | 1 mg/ml                                                                                                                                                                                          |
| <b>Storage</b>             | Conjugated antibodies should be stored at 4°C                                                                                                                                                    |
| <b>Note</b>                | For research use only                                                                                                                                                                            |
| <b>Application notes</b>   | A 1:1000 dilution of SMC-240 was sufficient for detection of ENaC beta in 15 µg of Mouse whole kidney lysate by ECL immunoblot analysis using goat anti-mouse IgG:HRP as the secondary antibody. |
| <b>Isotype</b>             | IgG1                                                                                                                                                                                             |
| <b>Clonality</b>           | Monoclonal                                                                                                                                                                                       |
| <b>MW</b>                  | 87kDa                                                                                                                                                                                            |
| <b>Uniprot ID</b>          | <a href="#">P37090</a>                                                                                                                                                                           |
