

## Product Datasheet

### Human IgM ELISA Kit (orb420518)

<b>Description</b>	Human IgM ELISA Kit
<b>Reactivity</b>	Human
<b>Tested Applications</b>	ELISA
<b>Storage</b>	See kit insert for complete instructions. Store coating buffer, wash buffer, blocking buffer, standard, and reagent diluent at 4°C. Store substrate solution at 4°C prior to opening. Protect from moisture and light. Store detection antibody and SA-HRP conjugate vial at 4° C prior to restoration. Aliquot capture antibody and target protein standard and freeze at -20°C. For extended storage aliquot contents and freeze at -20° C or below. Avoid multiple freeze-thaw cycles.
<b>Note</b>	For research use only
<b>Application notes</b>	Human IgM ELISA kit is designed for the quantitative detection of human IgM in serum, plasma, and hybridoma cell supernatants.
<b>Clonality</b>	Polyclonal
<b>Purity</b>	Rockland's Human IgM AccuSignal ELISA Kit is an in vitro enzyme-linked immunosorbent assay designed for the quantitative detection of human IgM in serum, plasma, and cell culture supernatants. This kit contains: Human IgM control, Capture antibody, biotinylated Detection Antibody, streptavidin-peroxidase conjugate, along with buffers and protocol. See protocol for details.
<b>Expiration Date</b>	Please enquire.
