### MAZ51 (orb525640)

|                        |                                                                                                        |
|------------------------|--------------------------------------------------------------------------------------------------------|
| <b>Description</b>     | MAZ51 is an indolinone that selectively antagonizes the activation of VEGFR3 by VEGFC (IC50 = 1 µM)... |
| <b>Note</b>            | For research use only                                                                                  |
| <b>Formula</b>         | C <sub>21</sub> H <sub>18</sub> N <sub>2</sub> O                                                       |
| <b>MW</b>              | 314.38                                                                                                 |
| <b>CAS Number</b>      | [163655-37-6]                                                                                          |
| <b>SMILES</b>          | CN(C1=CC=C(C2=CC=CC=C21)/C=C/3\C4=CC=CC=C4NC3=O)C                                                      |
| <b>Expiration Date</b> | 12 months from date of receipt.                                                                        |
