

## Product Datasheet

### Thyroxin-OVA conjugate (orb624098)

|                            |                                                                          |
|----------------------------|--------------------------------------------------------------------------|
| <b>Description</b>         | Thyroxin-OVA conjugate                                                   |
| <b>Tested Applications</b> | ELISA, GICA, ICA                                                         |
| <b>Preservatives</b>       | 0.01mol/L, pH 7.4 PBS                                                    |
| <b>Form/Appearance</b>     | Dry powder                                                               |
| <b>Storage</b>             | Short-term store at 4°C.Long-term store at -20°C. Avoid repeated freeze. |
| <b>Note</b>                | For research use only                                                    |
| <b>Application notes</b>   | Food Safety Small Molecule Antigen                                       |
| <b>Source</b>              | Ovalbumin (OVA)                                                          |
| <b>CAS Number</b>          | 51-48-9                                                                  |
| <b>Hazard Information</b>  | For research use only                                                    |
| <b>Expiration Date</b>     | 12 months from date of receipt.                                          |
