### Salmon Calcitonin peptide (orb71478)

|                         |                                                                                                                                                                                          |
|-------------------------|------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------|
| <b>Description</b>      | Salmon Calcitonin peptide                                                                                                                                                                |
| <b>Form/Appearance</b>  | White lyophilized powder                                                                                                                                                                 |
| <b>Storage</b>          | Keep in cool and dry place                                                                                                                                                               |
| <b>Note</b>             | For research use only                                                                                                                                                                    |
| <b>Protein Sequence</b> | Cys-Ser-Asn-Leu-Ser-Thr-Cys-Val-Leu-Gly-<br>Lys-Leu-Ser-Gln-Glu-Leu-His-Lys-Leu-Gln-<br>Thr-Tyr-Pro-Arg-Thr-Asn-Thr-Gly-Ser-Gly-<br>Thr-Pro-NH <sub>2</sub> (Disulfide bridge Cys1-Cys7) |
| <b>Purity</b>           | > 95%                                                                                                                                                                                    |
| <b>Expiration Date</b>  | 12 months from date of receipt.                                                                                                                                                          |
