

Product Datasheet

Oligo (dT)20 (orb93923)

Description	Oligo (dT) Primer hybridizes to the poly(A) tail of mRNA and is used as primer for first stand cDNA ...
Form/Appearance	clear aqueous solution
Concentration	100 µM
Storage	store at -20 °C
Note	For research use only
Purity	by HPLC
MW	Theoretical MW: 6022 g/mol
Expiration Date	12 months from date of receipt.
