

Product Datasheet

CD27 antibody (orb98290)

Description

Hamster monoclonal to CD27

Species/Host

Hamster

Reactivity

Human, Mouse

Conjugation

Unconjugated

Tested Applications

ELISA, FC, IHC-Fr, IHC-P, IP

Preservatives

Each vial contains 100 ul 1 mg/ml purified monoclonal antibody in PBS containing 0.09% sodium azide.

Form/Appearance

Each vial contains 100 ul 1 mg/ml purified monoclonal antibody in PBS containing 0.09% sodium azide.

Storage

Storage: The antibody may be stored at +4°C. For prolonged storage prepare appropriate aliquots and store at or below -20°C. Prior to use, an aliquot is thawed slowly in the dark at ambient temperature, spun down again and used to prepare working dilutions by adding sterile phosphate buffered saline (PBS, pH 7.2). Repeated thawing and freezing should be avoided. Working dilutions should be stored at +4°C, not refrozen, and preferably used the same day. If a slight precipitation occurs upon storage, this should be removed by centrifugation. It will not affect the performance or the concentration of the product

Note

For research use only

Isotype

IgG

Clonality

Monoclonal

Source

mAbs to murine CD27 were generated injecting a mixture of the mCD27tag expressing clones AR0524 and AR0530; Hamster spleen cells and SP2/0 murine myeloma cells were fused.

Uniprot ID

P26842

Hazard

Information

This product is intended FOR RESEARCH USE ONLY, and FOR TESTS IN VITRO, not for use in diagnostic or therapeutic procedures involving humans or animals. This product contains sodium azide. To prevent formation of toxic vapors, do not mix with strong acidic solutions. To prevent formation of potentially explosive metallic azides in metal plumbing, always wash into drain with plenty of water. This product is not for use in humans or animals.
