

mAChR M1 rabbit pAb

Cat#: orb767505 (Manual)

For research use only. Not intended for diagnostic use.

Product Name mAChR M1 rabbit pAb

Host species Rabbit

Applications WB;ELISA

Species Cross-Reactivity Human; Mouse; Rat

Recommended dilutions Western Blot: 1/500 - 1/2000. ELISA: 1/5000. Not yet tested in other

applications.

Immunogen The antiserum was produced against synthesized peptide derived from

human CHRM1. AA range:295-344

Specificity mAChR M1 Polyclonal Antibody detects endogenous levels of mAChR M1

protein.

Formulation Liquid in PBS containing 50% glycerol, 0.5% BSA and 0.02% sodium

azide..

Storage Store at -20°C. Avoid repeated freeze-thaw cycles.

Protein Name Muscarinic acetylcholine receptor M1

Gene Name CHRM1

Cellular localization Cell membrane; Multi-pass membrane protein. Cell junction, synapse,

postsynaptic cell membrane; Multi-pass membrane protein.

Purification The antibody was affinity-purified from rabbit antiserum by affinity-

chromatography using epitope-specific immunogen.

Clonality Polyclonal

Explore. Bioreagents.

Concentration 1 mg/ml

Observed band 51kD

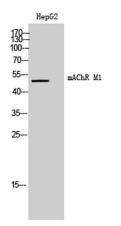

Human Gene ID 1128

Human Swiss-Prot Number P11229

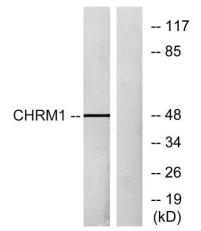

Alternative Names CHRM1; Muscarinic acetylcholine receptor M1

Background

The muscarinic cholinergic receptors belong to a larger family of G protein-coupled receptors. The functional diversity of these receptors is defined by the binding of acetylcholine and includes cellular responses such as adenylate cyclase inhibition, phosphoinositide degeneration, and potassium channel mediation. Muscarinic receptors influence many effects of acetylcholine in the central and peripheral nervous system. The muscarinic cholinergic receptor 1 is involved in mediation of vagally-induced bronchoconstriction and in the acid secretion of the gastrointestinal tract. The gene encoding this receptor is localized to 11q13. [provided by RefSeq, Jul 2008],

Western Blot analysis of HepG2 cells using mAChR M1 Polyclonal Antibody

Western blot analysis of lysates from HepG2 cells, using CHRM1 Antibody. The lane on the right is blocked with the synthesized peptide.
