

## uPA rabbit pAb

Cat#: orb769477 (Manual)

For research use only. Not intended for diagnostic use.

Product Name uPA rabbit pAb

Host species Rabbit

Applications IHC;IF;ELISA

Species Cross-Reactivity Human; Rat; Mouse;

**Recommended dilutions** Immunohistochemistry: 1/100 - 1/300. ELISA: 1/40000. Not yet tested in

other applications.

Immunogen The antiserum was produced against synthesized peptide derived from

human uPA. AA range:190-239

Specificity uPA Polyclonal Antibody detects endogenous levels of uPA protein.

Formulation Liquid in PBS containing 50% glycerol, 0.5% BSA and 0.02% sodium

azide..

Storage Store at -20°C. Avoid repeated freeze-thaw cycles.

Protein Name Urokinase-type plasminogen activator

Gene Name PLAU

Cellular localization Secreted.

**Purification** The antibody was affinity-purified from rabbit antiserum by affinity-

chromatography using epitope-specific immunogen.

**Clonality** Polyclonal

Concentration 1 mg/ml

**Observed band** 

Human Gene ID 5328

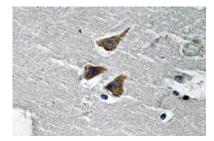

Human Swiss-Prot Number P00749

Alternative Names PLAU; Urokinase-type plasminogen activator; U-plasminogen activator;

uPA

**Background** 

This gene encodes a secreted serine protease that converts plasminogen to plasmin. The encoded preproprotein is proteolytically processed to generate A and B polypeptide chains. These chains associate via a single disulfide bond to form the catalytically inactive high molecular weight urokinase-type plasminogen activator (HMW-uPA). HMW-uPA can be further processed into the catalytically active low molecular weight urokinase-type plasminogen activator (LMW-uPA). This low molecular weight form does not bind to the urokinase-type plasminogen activator receptor. Mutations in this gene may be associated with Quebec platelet disorder and late-onset Alzheimer's disease. Alternative splicing results in multiple transcript variants, at least one of which encodes an isoform that is proteolytically processed. [provided by RefSeq, Jan 2016],

Immunohistochemistry analysis of uPA antibody in paraffin-embedded human brain tissue.
