

CD42c rabbit pAb

Cat#: orb771661 (Manual)

For research use only. Not intended for diagnostic use.

Product Name CD42c rabbit pAb

Host species Rabbit

Applications IHC;IF;ELISA

Species Cross-Reactivity Human; Mouse; Rat

Recommended dilutions IHC-p 1:50-200, ELISA 1:10000-20000

Immunogen Synthetic peptide from human protein at AA range: 90-150

Specificity The antibody detects endogenous CD42c

Formulation Liquid in PBS containing 50% glycerol, 0.5% BSA and 0.02% sodium

azide..

Storage Store at -20°C. Avoid repeated freeze-thaw cycles.

Protein Name Platelet glycoprotein Ib beta chain (GP-Ib beta) (GPIb-beta) (GPIbB)

(Antigen ČD42b-beta) (CD antigen CD42c)

Gene Name GP1BB

Cellular localization Membrane; Single-pass type I membrane protein.

Purification The antibody was affinity-purified from rabbit antiserum by affinity-

chromatography using epitope-specific immunogen.

Clonality Polyclonal

1 mg/ml Concentration

Observed band

Human Gene ID 2812

Human Swiss-Prot Number P13224

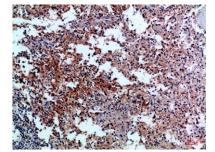

Platelet glycoprotein Ib beta chain (GP-Ib beta;GPIb-beta;GPIbB;Antigen CD42b-beta;CD antigen CD42c) **Alternative Names**

Background

Platelet glycoprotein Ib (GPIb) is a heterodimeric transmembrane protein consisting of a disulfide-linked 140 kD alpha chain and 22 kD beta chain. It is part of the GPIb-V-IX system that constitutes the receptor for von Willebrand factor (VWF), and mediates platelet adhesion in the arterial circulation. GPIb alpha chain provides the VWF binding site, and GPIb beta contributes to surface expression of the receptor and participates in transmembrane signaling through phosphorylation of its intracellular domain. Mutations in the GPIb beta subunit have been associated with Bernard-Soulier syndrome, velocardiofacial syndrome and giant platelet disorder. The

Soulier syndrome, velocardiofacial syndrome and giant platelet disorder. The 206 amino acid precursor of GPIb beta is synthesized from a 1.0 kb mRNA expressed in plateletes and megakaryocytes. A 411 amino acid protein arising from a longer, unspliced transcript in endothelial cells has been

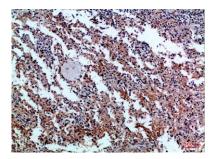

described; however, t
