

Product Datasheet

Vazyme - AccurSTART U+ One Step RT-qPCR Probe Kit (FOR FAST) (Q231-02)

Catalog Number	Q231-02
Category	Tools
Description	AccurSTART One Step RT-PCR Probe Kit (FOR FAST) is a probe-based RT-PCR fast detection kit suitable for single-plex or multi-plex quantitative PCR using RNA as a template (such as RNA virus). This product uses a new generation of antibody-modified Taq DNA Polymerase and one-step dedicated Reverse Transcriptase, with an optimized buffer for rapid amplification, which has faster amplification speed, higher amplification efficiency and specificity. It supports balanced amplification in both single-plex and multi-plex of low and high concentration samples in a short time.
Usage Notes	Restricted to UK and Ireland's customers ONLY
Storage	Store at -30 ~ -15°C and transport at ≤ 0°C.
Background	Only available for the UK and Republic of Ireland
Note	For research use only
Expiration Date	12 months from date of receipt.
