

Product Datasheet

Vazyme - ChamQ Geno-SNP Probe Master Mix (Q811-02)

Catalog Number	Q811-02
Category	Tools
Description	<p>ChamQ Geno-SNP Probe Master Mix is specially designed for single nucleotide polymorphism (SNP) typing by probe-based qPCR, which can be performed simply by only adding additional primers, Taqman MGB probes and templates. This master mix uses Champagne Taq DNA Polymerase as the core enzyme, with carefully optimized Buffer, the success rate of typing on low-concentration templates and complex templates has been increased. This product contains a unique ROX Passive Reference Dye that is suitable for all qPCR instruments. The concentration of ROX does not need to be adjusted on different instruments.</p>
Application notes	<p>Compatible with direct amplification of blood lysate: SNP typing can be performed using only blood lysate as th template. Broad template input compatibility: It is compatible with template input ranging from 1 - 10 ng. Great GC-rich template compatibility: It accurately genotypes at SNP sites with a GC content of 25 - 73%.</p>
Usage Notes	Restricted to UK and Ireland's customers ONLY
Storage	Store at -30 ~ -15°C and transport at ≤0°C. Keep away from light.
Background	Only available for the UK and Republic of Ireland
Note	For research use only
Expiration Date	12 months from date of receipt.
