

Product Datasheet

Vazyme - FastPure Viral DNA/RNA Mini Kit Pro (RC323-01)

Catalog Number	RC323-01
Category	Tools
Description	FastPure Viral DNA/RNA Mini Kit Pro is a column extraction kit, which can extract viral DNA/RNA from multiple types of samples. The kit uses a unique lysis system, without high temperature incubation, and can significantly improve the recovery rate of trace nucleic acid with carrier RNA. After specific adsorption on silica gel membrane, viral DNA/RNA can be quickly and efficiently purified. For a single sample, it only takes 12 minutes to finish extraction. And the products can be directly used for downstream related experiments such as reverse transcription, PCR, Real-Time PCR, NGS and Northern blot.
Application notes	Extreme performance: Easily capture trace nucleic acids of virus Wide sample compatibility: Suitable for whole blood, serum, plasma, swab, tissue, alveolar lavage fluid, cell culture supernatant and other samples Efficient and fast: Operate at room temperature for only 12 min
Usage Notes	Restricted to UK and Ireland's customers ONLY
Storage	Box 1: Store at -30 ~ -15°C and transport at $\leq 0^{\circ}\text{C}$. Box 2: Store at 15 ~ 25°C and transport at room temperature.
Background	Only available for the UK and Republic of Ireland
Note	For research use only
Expiration Date	12 months from date of receipt.
