

Product Datasheet

Vazyme - AccurSTART Reverse Transcriptase (RW201-02)

Catalog Number	RW201-02
Category	Tools
Description	AccurSTART Reverse Transcriptase is a directional modified reverse transcriptase based on HiScript II Reverse Transcriptase (Vazyme #R201). It is suitable for high-temperature reverse transcription because of its improved thermal stability, storage stability and cDNA synthesis ability. The increased specificity makes AccurSTART Reverse Transcriptase an excellent choice for one-step RT-qPCR reactions.
Application notes	High specificity: achieves beautiful 'S-shaped' amplification curves. Strong stability A good choice for self-build one-step systems: performs high reverse transcription efficiency in RT-PCR/RT-qPCR systems.
Usage Notes	Restricted to UK and Ireland's customers ONLY
Storage	Store at -30 ~ -15°C and transport at ≤0°C.
Background	Only available for the UK and Republic of Ireland
Note	For research use only
Expiration Date	12 months from date of receipt.
