## Sortin-3 (orb1089907)

|                       |                                                                                                                                                       |
|-----------------------|-------------------------------------------------------------------------------------------------------------------------------------------------------|
| <b>Catalog Number</b> | orb1089907                                                                                                                                            |
| <b>Category</b>       | Small Molecules                                                                                                                                       |
| <b>Description</b>    | Sortin3 is a sorting inhibitor, blocking Vps16 function, one protein in the class C tethering complex, and increasing aflatoxin synthesis and export. |
| <b>MW</b>             | 409.75                                                                                                                                                |
| <b>Formula</b>        | $C_{19}H_{22}BrClN_2O$                                                                                                                                |
| <b>Note</b>           | For research use only                                                                                                                                 |
