Prestained Protein Ladder (10-250 kDa) (orb1289374)

| | |
|-----------------------------|---|
| Catalog Number | orb1289374 |
| Category | Tools |
| Description | Prestained Protein Ladder (10-250 kDa) |
| Form/Appearance | Liquid |
| Buffer/Preservatives | 67 mM Tris-H ₃ PO ₄ , 5mM EDTA, 2 % SDS, 33 % Glycerol, 0.02 % proclin300, pH 7.5 |
| Tested applications | IEP, WB |
| Application notes | <p>1. Thaw the ladder at room temperature for a few minutes to dissolve precipitated solids. Do not boil! 2. Mix gently, but thoroughly, to ensure the solution is homogeneous. 3. Load the following volumes of the ladder on an SDS-polyacrylamide gel: - 5 μL per well for mini gel, - 10 μL per well for large gel. Use the same volumes for Western blotting. The loading volumes listed above are recommended for gels with a thickness of 0.75-1.0 mm. The loading volume should be doubled for 1.5 mm thick gels. Notes: 1. Prestained proteins can have different mobilities in various SDS-PAGE-buffer systems. However, they are suitable for approximate molecular weight determination when calibrated against unstained standards in the same system. See the table provided for migration patterns in different electrophoresis conditions. In low-percentage gels (10 %), the low-molecular weight proteins in the ladder may migrate with the dye front. 2. Prestained Protein Ladder can be used in Western blotting with all common membranes: PVDF, nylon and nitrocellulose. 3. Longer transfer times or higher transfer voltages may be required for Western blotting of large (>100 kDa) proteins.</p> |

Specificity

Prestained Protein Ladder is a mixture of 11 blue-, orange-, green-stained proteins (10 to 250 kDa) for use as size standards in protein electrophoresis (SDS-PAGE) and western blotting. The protein ladder is supplied in a ready-to-use format for direct loading onto gels; no need to heat, reduce, or add sample buffer prior to use.

Storage

Shipped at 4°C. Store at -20°C for one year.

Hazard Information

Non-Toxic

Note

For research use only

Expiration Date

12 months from date of receipt.

WB analysis of orb1289374.
