| Catalog Number    | orb1373533                                                                                                                                                                                                                                                                     |
| Category          | Proteins                                                                                                                                                                                                                                                                       |
| Description       | MMP21 HEK293T cell transient overexpression lysate (as WB positive control)                                                                                                                                                                                                    |
| Target            | MMP21                                                                                                                                                                                                                                                                          |
| Tag               | C-Myc/DDK                                                                                                                                                                                                                                                                      |
| UniProt ID        | <b>Q8N119</b>                                                                                                                                                                                                                                                                  |
| MW                | 62.3 kDa                                                                                                                                                                                                                                                                       |
| Expression System | HEK293T                                                                                                                                                                                                                                                                        |
| Source            | Human                                                                                                                                                                                                                                                                          |
| Storage           | Ship at ambient temperature. Upon receiving, store the sample at -20°C. Lysate samples can be reconstituted with SDS Sample Buffer. Avoid repeated freeze-thaw cycles after reconstitution. Lysate samples are stable for 12 months from date of receipt when stored at -20°C. |
| Note              | For research use only                                                                                                                                                                                                                                                          |
| NCBI              | <b>NM_147191, NP_671724</b>                                                                                                                                                                                                                                                    |
