

## Product Datasheet

### Human mammary carcinoma marker CA15-3 (CA15-3) ELISA kit (orb1675719)

|                            |                                                                                                                                                               |
|----------------------------|---------------------------------------------------------------------------------------------------------------------------------------------------------------|
| <b>Description</b>         | Human mammary carcinoma marker CA15-3 (CA15-3) ELISA kit                                                                                                      |
| <b>Reactivity</b>          | Human                                                                                                                                                         |
| <b>Tested Applications</b> | ELISA                                                                                                                                                         |
| <b>Note</b>                | For research use only                                                                                                                                         |
| <b>Application notes</b>   | Detect Range: 10 U/mL-300 U/mL. Sensitivity: 2.5 U/mL. Assay Time: 1-5 h. Detection wavelength: 450 nm. Sample Volume: 50-100 µL. Sample Type: serum, plasma. |
| <b>Expiration Date</b>     | Please enquire.                                                                                                                                               |
